Pooja Swarnkar

DevOps & AI Infrastructure Engineer

Ahmedabad, India | +91 88246 75665 | poojasonii0206@gmail.com | linkedin.com/in/poojaswarnkar | github.com/poojaswrnkar | poojaswrnkar.github.io

PROFESSIONAL SUMMARY

DevOps & AI Infrastructure Engineer with 2+ years of experience building and operating production cloud infrastructure, CI/CD pipelines, and containerized applications. Hands-on with AWS (ECS/Fargate, RDS, CloudFront), Kubernetes, Terraform, and GitOps, with specialized experience operating self-hosted LLM inference across multi-GPU NVIDIA infrastructure using vLLM, llama.cpp, and LiteLLM. Experienced in production database migrations, observability, infrastructure security, and cloud cost optimization.

TECHNICAL SKILLS

Cloud Platforms: AWS (ECS, Fargate, EC2, ECR, S3, CloudFront, RDS, IAM, VPC, Lambda, SNS, CloudWatch, Secrets Manager), GCP, DigitalOcean, AceCloud

Containers, CI/CD & IaC: Docker, Kubernetes, Helm, GitHub Actions, Jenkins, FluxCD (GitOps), Terraform, Git

AI Infrastructure: LLM inference, vLLM, SGLang, llama.cpp, LiteLLM, NVIDIA GPUs, MIG, GGUF quantization

Observability & Reliability: Prometheus, Grafana, CloudWatch, alerting, high availability

Databases: PostgreSQL, MongoDB, Redis, DragonflyDB

Security & Compliance: Secrets management, SOC 2, Cloudflare (DDoS protection)

Linux & Networking: Linux, Bash, Nginx, DNS, VPC

PROFESSIONAL EXPERIENCE

DevOps Engineer **Sep 2025 - Present**

Ankpal (fintech ERP platform), Ahmedabad, India

- Architect and manage AWS infrastructure for Dev, QA, UAT, and Production: ECS/Fargate backend, CloudFront frontend.
- Provisioned production API infrastructure with Terraform: VPC, private-subnet ECS Fargate tasks, ALB with HTTPS via ACM, ECR, IAM, Secrets Manager, and CloudWatch.
- Implemented GitHub Actions CI/CD for all four environments with AWS OIDC federation (no static credentials, scoped IAM permissions), health-check rolling deployments, and automatic rollback, cutting deploy time ~20%.
- Built and operate a self-hosted LLM inference platform on multi-GPU NVIDIA infrastructure (NVIDIA MIG, vLLM, llama.cpp, LiteLLM) serving AI chatbot and GenAI features.
- Executed a zero-downtime cross-account RDS PostgreSQL migration with snapshot-based cutover, consistency validation, and rehearsed rollback; administer PostgreSQL, MongoDB, and Redis (HA, backups, tuning).

Freelance DevOps Engineer **Jun 2025 - Aug 2025**

Independent, three concurrent client engagements

- HolidayTribe.ai: Ran Kubernetes deployments with Helm and GitOps (FluxCD), built Jenkins pipelines for microservices, and integrated AWS Secrets Manager with Terraform.
- NoticeBot (GST litigation platform): Dockerized the app on AWS EC2; cut image sizes for 30%+ faster CI builds.
- Inphynitics: Deployed Java and NestJS backends on AWS and hosted the frontend on S3, reducing hosting costs.

DevOps Engineer **Jun 2024 - Jun 2025**

Linearloop.io, Ahmedabad, India

- Founding infrastructure engineer for BetterBugs: built its AWS stack from scratch (Terraform, ECS, ECR, Docker) with ALB routing, private-subnet backends using a NAT Gateway for outbound traffic, Cloudflare, and Secrets Manager.
- Implemented Prometheus and Grafana monitoring with AWS Lambda and SNS alerting; migrated Redis to DragonflyDB with zero downtime and supported SOC 2 evidence collection.
- Built GitHub Actions and Jenkins CI/CD pipelines and Terraform provisioning on AWS across multiple products.
- Stabilized Vintly workloads on DigitalOcean Kubernetes, standardized Helm releases, and automated database backups.
- Optimized cloud resource allocation and scaling configurations and removed idle resources to reduce infrastructure costs.

DevOps Intern **Jan 2024 - Mar 2024**

Sudowall, Udaipur, India

- Set up GitHub-Jenkins CI/CD pipelines for automated builds and deployments.
- Containerized applications using Docker and Docker Compose and deployed a Prometheus/Grafana monitoring stack.
- Worked hands-on with AWS EC2, S3, IAM, VPC networking, and firewall rules (security groups, NACLs).

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science - Geetanjali Institute of Technology, Udaipur | CGPA: 9.1 / 10 2024

AWS Certified Cloud Practitioner - Amazon Web Services Verify credential
